

OSA State Cup and Presidents Cup Event Roster Information for Club Administrators

Hello Club Administrators,

We are using Demosphere this year for our Cups event rostering and game day rosters. I have cloned each team's league roster (as of January/February) into the event from Demosphere. Any changes made to your roster after that clone or any club pass players that need to be added/deleted will be completed by you in Demosphere.

You will login to the [state system dashboard link](#) and click on the club under Club Management.

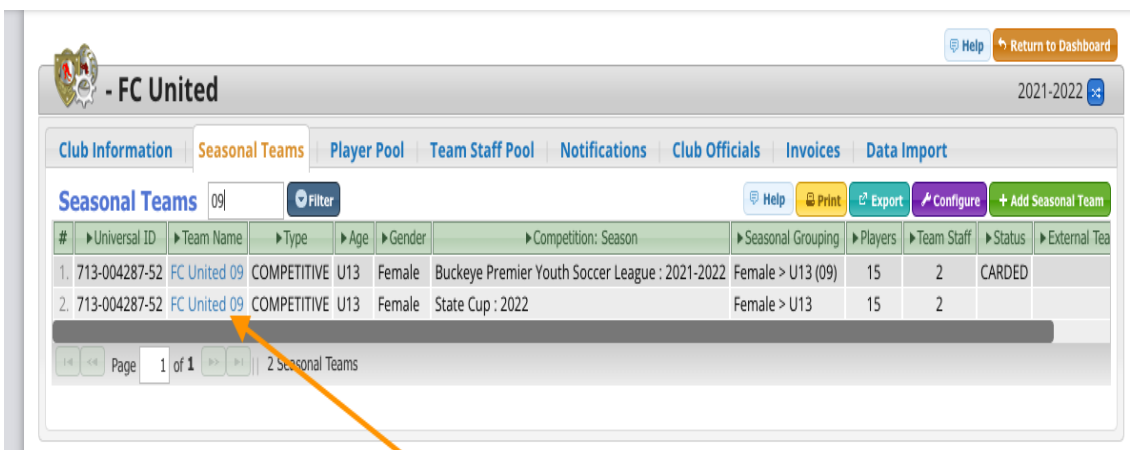

The screenshot shows the "My Dashboard" for RosterPro Club Registrations. The "Club Management" tab is active, displaying a table of clubs. An orange arrow points to the "FC United" entry in the "Club Name" column.

#	Universal ID	Club Name	Acronym	Status	Sync	Mailing Address	Website
1.	C714-003805-28	FC United		ACTIVE	ON	[REDACTED]	fcunited.club

You will go to your Seasonal Teams tab and click on the team that is connected to the Cups 2023 event. It will either say Presidents Cup 2023 or State Cup 2023.

(Make sure you **do not** pick the State Cup/Presidents Cup Season that says "Application" next to it. That was only for the registration application.)

The screenshot shows the "FC United" dashboard with the "Seasonal Teams" tab active. It displays a table of seasonal teams for the 2021-2022 season. An orange arrow points to the "FC United 09" entry in the "Team Name" column for the "State Cup : 2022" competition.
