OHIO SOCCER STATE LEAGUE

Club Pass (Guest) Player Policy

A player who holds a current US Youth Soccer member pass may club pass "guest" on team(s) per OSSL Rule 3.02 Player Eligibility.

- Club pass players must come from within your club.
- OSSL players can guest play in different age groups and between divisions within the same age group.
- OSSL Premier II Division teams are restricted to a maximum of 3 OSSL Premier I Division players guest playing in the same age group.
- OSSL players cannot guest play for teams within the same age group and division.
- At no time may a club pass player be listed on more than one team within the same age division.

Club pass players will be directly added to a team's official roster. They will be designated as a club pass player on the roster. Teams may not replace club pass players once they are added on the team roster unless the request is made prior to a team playing its first OSSL game, the player transfers to another club, or the player voluntarily quits their team.

Teams may add club pass players to their official team roster throughout the course of the OSSL season provided that the total number of club pass players does not exceed the maximum allowed.

For the U11 and U12 age groups, teams are allowed a total of 25 players on their team roster. This includes first-time rostered players and club pass players. The roster must contain a minimum of 7 first-time rostered players.

For the U13-U18/19 age groups, teams are allowed a total of 30 players on their team roster. This includes first-time rostered players and club pass players. The roster must contain a minimum of 7 first-time rostered players.

Once a player is added on the official team roster as a club pass player, they are eligible for all future OSSL games. **Once added, club pass players should automatically show up on the game day roster.**

ADDING CLUB PASS PLAYERS TO THE ROSTER

For a club pass player to be eligible, teams must have their Club Administrator add the player to the team's **event roster** on the Team Management > Building Roster area of the **OSSL Schedules Event** in GotSport (see link below).
